

## REFUND POLICY

Notify Information Centre (NIC) is a company that is 100% focused on service delivery and customers' satisfaction.

We intend to allow ALL our first-time customers to experience or try out our partnered products and services on Google Cloud for **30 days FREE**.

Yes, you heard us correctly "**30 days FREE trial**".

Well, many thanks to Google who believes in the philosophy that, customers should have the opportunity to try out a product or service for a short period of time, and afterwards they can decide on the continued use of such product or services at a charge or stop using the product or service overall – which makes perfect sense to us.

So, flash news!

**You don't get charged for any of the Google Cloud Partnered Services we offer at Notify Information Centre (NIC) during the 30 days trial period.**

We encourage all of our NEW customers to go through the **30 days FREE trial for validation**.

We have just one (1) EXCEPTION only:

You need to purchase just ONLY a domain name to test the FREE Google Workspace for 30 days.

We do not make REFUNDS on domain name purchase(s).

Thank you.
